+ PORTFOLIO

○ **A Portfilio Website**

my own porfilio website built with vanilla javascript. Hosted with netlify!!

https://bishwas-dahal.netlify.app/

○ **A eccomerce app**

A Eccomerce cart app built with React js using fakestoreapi from google and managed with the help of global state management library Redux. Features include the searching of products , selecting the categories of products , adding the products to the shopping cart....! you can surely check out this from link below. (i made this within 24 hours at the beginning of my learning phase as a challenge)

https://eccomerce-cart-bishwas-dahal.netlify.app/

+ SKILLS

- HTML
- CSS
- Javascript
- React.js
- Next.js
